| | |
|------------------------------|--|
| Tree Mitigation | Lot contains two extremely large Cottonwood trees that neighbors state are nuisance. |
| Wetland Protection | No wetlands observed. Property currently very little impervious surface and utilize two ground drains to remove excess water. Plans call for adding another surface drain as new plans call for over 50% impervious surface. |
| Comprehensive Plan Alignment | (Plan currently under revision) |
| Visual Impacts | Directly across from residential area. Lockwood family is neighbor. Neighbor spoke with did not have concerns.no concern. |
| Erosion Control | The property is flat. No concerns. |
| Environmental Protection | Plans do not list chemicals used at facility, their storage, or emissions projected to be given off so it cannot be evaluated. |

Additional Comments (optional)

No wildlife observed. Property currently used for outdoor storage of equipment, truck, camper. See photographs taken of site on day of inspection.
